A Guest Lecture
On
"Research Methodology for beginners"

Date : 22nd July, 2017

Time : 11.00 am

Venue : Conference Hall

Organised by : Department of Computer Engineering .

Department Of Computer Engineering

Guest Lecture

On

" Research Methodology for beginners "

2017-18

Objectives & Outcomes of Guest Lectures

Objectives -

1. Guest Lectures add interest and excitement, which can increase student involvement. The students may have a personal interest in the thoughts of the guest lecturer. The guest lecturer could be a renowned expert in the field or the author of the course textbook. There are many reasons why the students might find it particularly interesting to have access to the guest lecturer. If their interest is perked, the students are more likely to want to get involved. This involvement and the ensuing discourse can add synergy to the online learning so that everyone can feed off of the energy and knowledge of other participants.

2. They provide students with alternative perspectives, opinions, and personal experiences that can reinforce the teachings of the teacher. The guest lecture may have stories or anecdotes other than those used by the regular teacher. If multiple perspectives arrive at the same conclusion, that conclusion can be reinforced in the minds of the students.

3. Guest Lectures provide expertise in select areas within which the teacher may have limited knowledge. Not everyone that teaching a course is an expert on every aspect taught within the course. In fact, few teachers probably are. The key is to know who is and to find ways to get them involved in the course so as to best benefit the students.

4. They provide the teacher an opportunity to concentrate more on the students. If the teacher is less involved in the teaching of the content, then more time becomes available to take a step back and view the discussions taking place in the course. The teacher can pay more attention to who is posting comments, at what level of quality those messages are, and whether the conversation has sparked an interesting tangent discussion to give a few examples. The teacher can furthermore take the time to try and get some of the less active students involved in the course through personal messages and/or emails.

5. Guest lectures present an opportunity to utilize alternative technologies and teaching techniques into the course (flexibility). The guest lecturer may have a method of delivering content that is different from the main teacher. For example, the teacher may be using video in several parts of the course.

Outcomes

1. Guest lecturers offer students the opportunity to meet passionate, committed and critical people and to learn from them in various ways.

2. Guest lecturers provide an important educational experience for students based on their real-world life experiences. Students get to see the insight and perspective of the guest lecturers' specific field. The format can enable students to interact with professionals in formal and informal settings. Through discussions, interpersonal competence and communicative skills are fostered. Guests' contributions can take the format of a single lecture, a lecture series over a specific period or workshops.

3. Another outcome is the link that students get to make between what they learn in their textbooks and the experiences shared by the guest speaker. Students thereby build important connections between what they have learned and the real world.

4. Guest lecturers can act as role models and bring an authentic, vivid picture of the real world to students, thereby enabling trans disciplinary learning. Experiences and perspectives from local actors and entrepreneurs inspire students in their own (entrepreneurial) projects, creating motivation and an action-orientation. They bring in special expertise and experiences that teachers cannot provide. The extent to which guest lecturers' inputs are valuable depends however on the guests' personal skills, their experience and personality.

Report on

Women Entrepreneurship Event 2017

Date: 8th March 2017

Venue: Ground Floor, Seminor hall.

Organized by: Department of MBA

The Department of MBA, ATC on March 8th of the year 2017, had organized The woman Entrepreneurship program which comprised four events in all. The programme kicked off with Government Strategem, a session conducted by Mrs. Mrs. Suryakanta Kshirsagar - Rajput, founder president KYSPM Sanchalit Pragati Foundation, Aurangabad. followed by the event was summed up by a motivating session on Succeeding Through Failure: Grow as you Go The competitions helped the participants and the audience to get vast exposure and experience to the corporate world and the entrepreneurial journey. They were able to polish up their business knowledge and intellect and learned to tackle obstacles on the run. It was a great opportunity for the students to enhance their knowledge in the field of business. It was an amazing platform where students got a chance to test their knowledge and to gain confidence as well. It was such an opportunity which was not missed by the students who are constantly aware of the businessworld. Thereby, it turned out to be the great exposure for the students. Altogether session was very interactive and it created a sense of awareness among students. The speaker of the event expressed his gratitude towards everyone who joined. He also wished best of luck to everyone and also gave some tips to gain success in future.

The event ended on a positive note and was a successful one with the constant support of our respected Principal Sir, Prof. Rupali Jadhav, Santosh Kulthe. He was thankful for the valuable inputs delivered by the speaker and was appreciative of the commendable efforts taken by the Convener, Dr. Bharat Bhushan and the whole MBA Team for initiating such a knowledgeable and informative event for the students. The event could never be a success without the enthusiastic participants and the MBA Team. We hope to continue with many more such successful events. 69 students attended the event.

SEMINAR ON

"Intellectual Property Rights"

BY,

Adv. Anand Mahurkar

Founder Legal Associates, Pune

Report on

Seminar on

Intellectual Property Rights

Organized by

Adsul Technical Campus Faculty of Engineering and MBA, Ahmednagar

Date of Event: 02nd March 2019

Adsul Technical Campus Faculty of Engineering and MBA, Ahmednagar organized seminar on "Intellectual Property Rights" by an eminent personality Mr.Gavhane Shubham, Pune on 8th July 2016 in Seminar hall.

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. There are many types of intellectual property, and some countries recognize more than others. The most well-known types are copyrights, patents, trademarks, and trade secrets. Early precursors to some types of intellectual property existed in societies such as Ancient Rome, but the modern concept of intellectual property developed in England in the 17th and 18th centuries. The term "intellectual property" began to be used in the 19th century, though it was not until the late 20th century that intellectual property became commonplace in the majority of the world's legal systems.

The main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. To achieve this, the law gives people and businesses property rights to the information and intellectual goods they create, usually for a limited period of time. This gives economic incentive for their creation, because it allows people to profit from the information and intellectual goods they create. These economic incentives are expected to stimulate innovation and contribute to the technological progress of countries, which depends on the extent of protection granted to innovators.

The session was interactive and knowledgeable. The experience shared by him will be very much helpful for all the faculty members and students in the future.

A Guest Lecture

On

"Basic Concepts of Research Methodology"

Date : 4th August, 2018

Time : 11.00 am

Venue : Conference Hall

Organised by : Department of Computer Engineering .

Department Of Computer Engineering

'विद्या राष्ट्रस्य प्रतिष्ठा'

Guest Lecture

On

"Basic Conepts of Research Methodology"

2018-19

Objectives & Outcomes of Guest Lectures

Objectives -

1. Guest Lectures add interest and excitement, which can increase student involvement. The students may have a personal interest in the thoughts of the guest lecturer. The guest lecturer could be a renowned expert in the field or the author of the course textbook. There are many reasons why the students might find it particularly interesting to have access to the guest lecturer. If their interest is perked, the students are more likely to want to get involved. This involvement and the ensuing discourse can add synergy to the online learning so that everyone can feed off of the energy and knowledge of other participants.

2. They provide students with alternative perspectives, opinions, and personal experiences that can reinforce the teachings of the teacher. The guest lecture may have stories or anecdotes other than those used by the regular teacher. If multiple perspectives arrive at the same conclusion, that conclusion can be reinforced in the minds of the students.

3. Guest Lectures provide expertise in select areas within which the teacher may have limited knowledge. Not everyone that teaching a course is an expert on every aspect taught within the course. In fact, few teachers probably are. The key is to know who is and to find ways to get them involved in the course so as to best benefit the students.

4. They provide the teacher an opportunity to concentrate more on the students. If the teacher is less involved in the teaching of the content, then more time becomes available to take a step back and view the discussions taking place in the course. The teacher can pay more attention to who is posting comments, at what level of quality those messages are, and whether the conversation has sparked an interesting tangent discussion to give a few examples. The teacher can furthermore take the time to try and get some of the less active students involved in the course through personal messages and/or emails.

5. Guest lectures present an opportunity to utilize alternative technologies and teaching techniques into the course (flexibility). The guest lecturer may have a method of delivering content that is different from the main teacher. For example, the teacher may be using video in several parts of the course.

Outcomes

1. Guest lecturers offer students the opportunity to meet passionate, committed and critical people and to learn from them in various ways.

2. Guest lecturers provide an important educational experience for students based on their real-world life experiences. Students get to see the insight and perspective of the guest lecturers' specific field. The format can enable students to interact with professionals in formal and informal settings. Through discussions, interpersonal competence and communicative skills are fostered. Guests' contributions can take the format of a single lecture, a lecture series over a specific period or workshops.

3. Another outcome is the link that students get to make between what they learn in their textbooks and the experiences shared by the guest speaker. Students thereby build important connections between what they have learned and the real world.

4. Guest lecturers can act as role models and bring an authentic, vivid picture of the real world to students, thereby enabling trans disciplinary learning. Experiences and perspectives from local actors and entrepreneurs inspire students in their own (entrepreneurial) projects, creating motivation and an action-orientation. They bring in special expertise and experiences that teachers cannot provide. The extent to which guest lecturers' inputs are valuable depends however on the guests' personal skills, their experience and personality.

Sub: Permission for conducting guest lecture on Basic Concepts of Research Methodology.

Respected sir,

I am writing this letter to seek your kind permission for arranging a guest lecture for the second year and third-year students of Computer Engineering on topic "Basic Concepts of Research Methodology". We have decided to invite Dr D. P. Jain from AJMVPS, Institute of Management, Research and Rural Development, Ahmednagar . This lecture will be arranged on 4th August 2018 from 11.00 am to 1.00 pm.

I request you to kindly grant permission to conduct the guest lecture.

Yours Sincerely

HOD Computer Department
Computer Engg. Dept.

Activity Report

Type of Event:	Guest Lecture
Topic:	**Basic Concepts of Research Methodology .**
Speaker:	Dr. D. P. Jain, IMRRD, Ahmednagar
Organized by:	Department of Computer, Adsul's Technical Campus
Date:	04th August 2018
Attended By:	Students of second and third-year Computer
Venue:	Conference Hall

Description:

The guest lecture was started with the welcome of the guest and Principal, Adsul's Technical Campus. The welcome address was given by Prof. Bhise A.K. of Computer Department. The aim and summary of the guest lecture are given below.

Aim of the Guest Lecture:

1) How you designed your research and to justify your design choices.

2) To learn and practice the literature survey aspects of projects and prepare the scope and goals for the proposed project.

3) To learn, practice and improve the research presentation skills and with latest tools. To learn and understand the research publication ethics and tools like Latex.

Summary of Presentations:

Enable the student potentials to organize, coordinate and focus the research aptitude with confidence. Improve the awareness on indexing, quality evaluation, author index of publications, Improve the presentation skills through seminars, . The Guest Lecture was ended with the Vote of thanks by Prof. Gadekar Pratiksha.

Coordinators:

1) Somwanshi A.A

2) Garud Priti.

3) Bhise A.K

Activity Report

Date: 19th August 2019 Classes Attended & Number of beneficiaries: 45 students from Engineering & MBA.

Objective: Major focus was given on ways to help the students know about entrepreneurship opportunities in the market and help them to start up their business.
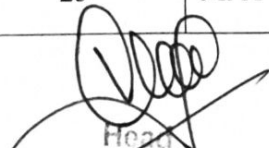

Name and details of the resource person : Dr. Rajendrasingh Pardeshi Nichani who is a successful Academician whose passion is to help students with career building and also contribute to the Start Up culture. Dr. Rajendrasingh Pardeshi Nichani have over 20 years of experience in the education field. Dr. Rajendrasingh Pardeshi interacted with the students and got to know their various ideas in starting up a new business. In his interaction, Dr. Rajendrasingh Pardeshi spoke about the Skills required by a successful Entrepreneur and the desire to improve their world, ability to raise money, relieve stress, to be reproductive, to make entrepreneur friends, ability to spot new trends and to deal with failure. He also mentioned about the various things a person can do to become an Entrepreneur. He further encouraged the students to follow their passion according to their skills. The students were really inspired and took part in the activities organized by Dr. Rajendrasingh Pardeshi in which they had to come up with their own start up ideas and present it in front of everyone.

B) Report

The One Day Workshop on "Intellectual Property Rights (IPR's)" was conducted on 8th November 2019 . The aim of the workshop was to establish a basic level of awareness amongst the workshop participants. The 65 participants attended the workshop participants.

Mr. Swapnil Gawande, BLI Consultancy, Amravati was the resource person for the workshop. Principal, was the Chairperson for the workshop.

Prof.V.M.Joshi, convener of the online workshop introduced the workshop. Prof. S.R. Shelar expressed the vote of thanks of the workshop.

Monday, 8th November 2019 1.00 AM to 2.00 PM	Topic : Introduction to Intellectual Property Rights (IPR's) and Patent Process
	Mr.Swapnil Gawande,BLI Consultancy Amaravati

Mr.Swapnil Gawande described Intellectual property as a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. It also includes other types of rights, such as trade secrets, publicity rights, moral rights, and rights against unfair competition. Artistic works like music and literature, as well as some discoveries, inventions, words, phrases, symbols, and designs can all be protected as intellectual property.

The organization of this workshop was possible due to the support of Mr.Swapnil Gawande, Management of ATC, Chas, Principal and faculty members of the college.

We also express our sincere thanks to all the participants for their active participation in the workshop.

Convener   Principal

3

The organization of this workshop was possible due to the support of   Mr. Swapnil Gawande, **BLI Consultancy Amaravati.** We are very much thankful to Mr. Swapnil Gawande, Faculty Members and all the participants for their active participation in the Online workshop .

Activity Report

Guest Lecture Title: Startups – Why, What and How?

Date of Conduct: 25th January, 2020

Duration: One Day

**Speaker's Name & Designation:** Prof. Manoj Kapare.

Organisation: IMSCDR, Ahmednagar

No of students present: 60+

Synopsis:

On 25th January 2020, Prof. Manoj Kapare, from Institute of Management Studies Career Development and Research (IMSCDR), Ahmednagar, delivered a guest lecture on "Startups-Why, What, How?" for the batch of 2019-21, International Business & Agribusiness. He gave the insights of Startups, explaining the difference between a Startup and a company, and the mindset that one requires for having a successful Startup. He also shed light on the difficulties faced while starting a Startup and how one can overcome them with persistence. He explained how the job market is on the unpredictable side, and thus everyone should venture into Startup at some point in time. He also shed light on the real business world and how the reality is entirely different from one's expectations while starting a venture. Prof. Manoj Kapare explained the motivation that is required if one wants to start a Startup should line up with one's willingness to solve an issue, and doing so without the fear of failure. One needs to identify a real problem, a market, scalability, a strong team, and a revenue model to design a successful Startup. He also explained how to weigh a business plan according to Lean Canvas along with the basics of pitching, the funding process, launching an idea, and the importance of regular customer feedback. Prof. Manoj Kapare stressed upon the fact that the ultimate aim that any founder of a Startup should be Growth. He expressed his sincere interest in guiding the students who plan to have their Startups in the future. .

This guest lecture was very informative, firsthand experience of what to expect from life in a Startup. How do Startups actually function and how do they develop their offerings. Also we got to know about the mindset that is required for entrepreneurship. It was an enlightening session. "The session was really engaging and insightful. He didn't only talk about what is needed to start
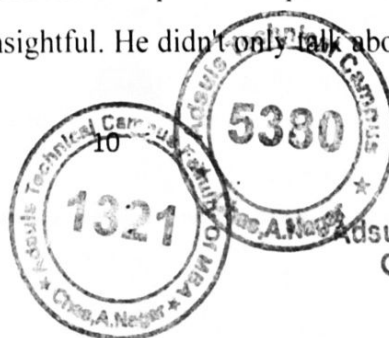

Principal
Adsul's Technical Campus
Chas, Ahmednagar

your own start-up but also the knowledge of how to go about things at ground level. He even told the do's and don'ts of a start-up and in a very interesting way. He shared this experience of his own journey which was really motivating. Overall Feedback: The session was quite thorough and insightful and students were enthusiastic to know about various aspects of the world of Startups and shared their ideas with Prof. Manoj Kapare, who provided his priceless feedback on the same.

A Guest Lecture

On

"Research Methodology And Report Writing "

Date : 25th October, 2019

Time : 11.00 am

Venue : Conference Hall

Organised by : Department of Computer Engineering .

DEPARTMENT OF COMPUTER ENGINEERING

'विद्या राष्ट्रस्य प्रतिष्ठा'

Guest lecture

On

"Research Methodology And Report Writing"

2018-19

Objectives & Outcomes of Guest Lectures

Objectives –

1. Guest Lectures add interest and excitement, which can increase student involvement. The students may have a personal interest in the thoughts of the guest lecturer. The guest lecturer could be a renowned expert in the field or the author of the course textbook. There are many reasons why the students might find it particularly interesting to have access to the guest lecturer. If their interest is perked, the students are more likely to want to get involved. This involvement and the ensuing discourse can add synergy to the online learning so that everyone can feed off of the energy and knowledge of other participants.

2. They provide students with alternative perspectives, opinions, and personal experiences that can reinforce the teachings of the teacher. The guest lecture may have stories or anecdotes other than those used by the regular teacher. If multiple perspectives arrive at the same conclusion, that conclusion can be reinforced in the minds of the students.

3. Guest Lectures provide expertise in select areas within which the teacher may have limited knowledge. Not everyone that teaching a course is an expert on every aspect taught within the course. In fact, few teachers probably are. The key is to know who is and to find ways to get them involved in the course so as to best benefit the students.

4. They provide the teacher an opportunity to concentrate more on the students. If the teacher is less involved in the teaching of the content, then more time becomes available to take a step back and view the discussions taking place in the course. The teacher can pay more attention to who is posting comments, at what level of quality those messages are, and whether the conversation has sparked an interesting tangent discussion to give a few examples. The teacher can furthermore take the time to try and get some of the less active students involved in the course through personal messages and/or emails.

5. Guest lectures present an opportunity to utilize alternative technologies and teaching techniques into the course (flexibility). The guest lecturer may have a method of delivering content that is different from the main teacher. For example, the teacher may be using video in several parts of the course.

Outcomes

1. Guest lecturers offer students the opportunity to meet passionate, committed and critical people and to learn from them in various ways.

2. Guest lecturers provide an important educational experience for students based on their real-world life experiences. Students get to see the insight and perspective of the guest lecturers' specific field. The format can enable students to interact with professionals in formal and informal settings. Through discussions, interpersonal competence and communicative skills are fostered. Guests' contributions can take the format of a single lecture, a lecture series over a specific period or workshops.

3. Another outcome is the link that students get to make between what they learn in their textbooks and the experiences shared by the guest speaker. Students thereby build important connections between what they have learned and the real world.

4. Guest lecturers can act as role models and bring an authentic, vivid picture of the real world to students, thereby enabling trans disciplinary learning. Experiences and perspectives from local actors and entrepreneurs inspire students in their own (entrepreneurial) projects, creating motivation and an action-orientation. They bring in special expertise and experiences that teachers cannot provide. The extent to which guest lecturers' inputs are valuable depends however on the guests' personal skills, their experience and personality.

Activity Report

Type of Event:	Guest Lecture
Topic:	**Research Methodology And Report Writing.**
Speaker:	Dr.H.B Jadhav, S.C.S.M.C.O.E. Nepti Ahmednagar
Organized by:	Department of Computer, Adsul's Technical Campus
Date:	25th October 2019
Attended By:	Students of second and third year Computer
Venue:	Conference Hall

Description:

The guest lecture was started with the welcome of the guest and Principal, Adsul's Technical Campus. The welcome address was given by Prof. Bhise A.K. of Computer Department. The aim and summary of the guest lecture are given below.

Aim of the Guest Lecture:

1) How you designed your research and to justify your design choices.

2) To learn and practice the literature survey aspects of projects and prepare the scope and goals for the proposed project.

3) To learn, practice and improve the research presentation skills and with latest tools. To learn and understand the research publication ethics and tools like Latex.

Summary of Presentations:

Enable the student potentials to organize, coordinate and focus the research aptitude with confidence. Improve the awareness on indexing, quality evaluation, author index of publications, Improve the presentation skills through seminars, . The Guest Lecture was ended with the Vote of thanks by Prof. Gadekar Pratiksha.

A Online Guest Lecture

On

"Research Methodology"

Date : 30th July, 2020

Time : 12.00 pm

Organised by : Department of Computer Engineering .

DEPARTMENT OF COMPUTER ENGINEERING

'विद्या राष्ट्रस्य प्रतिष्ठा'

ONLINE GUEST LECTURE
ON
"RESERCH METHODOLOGY"
2020-21

Objectives & Outcomes of Guest Lectures

Objectives -

1. Guest Lectures add interest and excitement, which can increase student involvement. The students may have a personal interest in the thoughts of the guest lecturer. The guest lecturer could be a renowned expert in the field or the author of the course textbook. There are many reasons why the students might find it particularly interesting to have access to the guest lecturer. If their interest is perked, the students are more likely to want to get involved. This involvement and the ensuing discourse can add synergy to the online learning so that everyone can feed off of the energy and knowledge of other participants.

2. They provide students with alternative perspectives, opinions, and personal experiences that can reinforce the teachings of the teacher. The guest lecture may have stories or anecdotes other than those used by the regular teacher. If multiple perspectives arrive at the same conclusion, that conclusion can be reinforced in the minds of the students.

3. Guest Lectures provide expertise in select areas within which the teacher may have limited knowledge. Not everyone that teaching a course is an expert on every aspect taught within the course. In fact, few teachers probably are. The key is to know who is and to find ways to get them involved in the course so as to best benefit the students.

4. They provide the teacher an opportunity to concentrate more on the students. If the teacher is less involved in the teaching of the content, then more time becomes available to take a step back and view the discussions taking place in the course. The teacher can pay more attention to who is posting comments, at what level of quality those messages are, and whether the conversation has sparked an interesting tangent discussion to give a few examples. The teacher can furthermore take the time to try and get some of the less active students involved in the course through personal messages and/or emails.

5. Guest lectures present an opportunity to utilize alternative technologies and teaching techniques into the course (flexibility). The guest lecturer may have a method of delivering content that is different from the main teacher. For example, the teacher may be using video in several parts of the course. The guest may instead opt to use illustrated

6. audio (similar to Real Presenter). The variation can remove the chance that repetitiveness could begin to bore some students.

Outcomes

1. Guest lecturers offer students the opportunity to meet passionate, committed and critical people and to learn from them in various ways.

2. Guest lecturers provide an important educational experience for students based on their real-world life experiences. Students get to see the insight and perspective of the guest lecturers' specific field. The format can enable students to interact with professionals in formal and informal settings. Through discussions, interpersonal competence and communicative skills are fostered. Guests' contributions can take the format of a single lecture, a lecture series over a specific period or workshops.

3. Another outcome is the link that students get to make between what they learn in their textbooks and the experiences shared by the guest speaker. Students thereby build important connections between what they have learned and the real world.

4. Guest lecturers can act as role models and bring an authentic, vivid picture of the real world to students, thereby enabling trans disciplinary learning. Experiences and perspectives from local actors and entrepreneurs inspire students in their own (entrepreneurial) projects, creating motivation and an action-orientation. They bring in special expertise and experiences that teachers cannot provide. The extent to which guest lecturers' inputs are valuable depends however on the guests' personal skills, their experience and personality.

Report on

Women Entrepreneurship Event 2022

Date: 8th March 2022

Venue: Ground Floor, Seminor hall.

Organized by: Department of MBA

The Department of MBA, ATC on March 8th of the year 2022, had organized The woman Entrepreneurship program which comprised four events in all. The programme kicked off with Government Strategem, a session conducted by - Mrs. Gayatri Sachin Rane, founder president NIVESH INDIA, Ahmednagar. followed by the event was summed up by a motivating session on Succeeding Through Failure: Grow as you Go The competitions helped the participants and the audience to get vast exposure and experience to the corporate world and the entrepreneurial journey. They were able to polish up their business knowledge and intellect and learned to tackle obstacles on the run. It was a great opportunity for the students to enhance their knowledge in the field of business. It was an amazing platform where students got a chance to test their knowledge and to gain confidence as well. It was such an opportunity which was not missed by the students who are constantly aware of the businessworld. Thereby, it turned out to be the great exposure for the students. Altogether session was very interactive and it created a sense of awareness among students. The speaker of the event expressed his gratitude towards everyone who joined. He also wished best of luck to everyone and also gave some tips to gain success in future.

The event ended on a positive note and was a successful one with the constant support of our respected Principal Sir, Prof. Rupali Khemnar , Prof. Ramesh Kakade. He was thankful for the valuable inputs delivered by the speaker and was appreciative of the commendable efforts taken by the Convener, Dr. Bharat Bhushan and the whole MBA Team for initiating such a knowledgeable and informative event for the students. The event could never be a success without the enthusiastic participants and the MBA Team. We hope to continue with many more such successful events. 58 students attended the event.

To,

Prof. Sambhaji Bhosale,

IMRRD, Ahmednagar

I thank you from the bottom of my heart for taking time from your busy schedule to be the guest speaker at our Institute. Your presence and wise words helped magnify our cause in the best possible way. This program was a huge success. All thanks to your enlightening words that inspired our students and faculty out there.

I look forward to our next interaction soon. Wishing your all the best for your future endeavors.

Thanks, and regards.

Activity Report

Type of Event: Guest Lecture

Topic: Entrepreneurship: A lifetime of rewards

Speaker: Prof. Sambhaji Bhosale, IMRRD, Ahmednagar.

Organised by: Department of MBA, Adsul's Technical Campus

Date: Jan. 28, 2022

Attended By: Students of first and second-year MBA

Venue: Conference Hall, Ground Floor.

Description:

The Guest Lecture was started with the Welcome of the Guest and Principal, Adsul's Technical Campus. The welcome address was given by Prof. Ahiwale A. V. of MBA department. Guest Speaker Prof. Sambhaji Bhosale delivered lecture in two sessions. The aim and summary of the Guest Lecture are given below.

Aim of the Guest Lecture:

1) What is entrepreneurship.
2) Why entrepreneurship is considered as a life-time award.
3) How own business can be developed.
4) Threats and opportunities in entrepreneurship.
5) Facilities provided by Government for new business.

Summary of Presentations:

The message "Entrepreneurship is always better than any service" is delivered by guest speaker through this lecture . The presentations clearly explained the need of entrepreneurship in today's era. How it is beneficial and what are opportunities in entrepreneurship was told by speaker. The Guest Lecture was ended with the Vote of thanks by Prof. Ramesh Kakade.

13

Objectives & Outcomes of Guest Lectures

Objectives –

1. Guest Lectures add interest and excitement, which can increase student involvement. The students may have a personal interest in the thoughts of the guest lecturer. The guest lecturer could be a renowned expert in the field or the author of the course textbook. There are many reasons why the students might find it particularly interesting to have access to the guest lecturer. If their interest is perked, the students are more likely to want to get involved. This involvement and the ensuing discourse can add synergy to the online learning so that everyone can feed off of the energy and knowledge of other participants.

2. They provide students with alternative perspectives, opinions, and personal experiences that can reinforce the teachings of the teacher. The guest lecture may have stories or anecdotes other than those used by the regular teacher. If multiple perspectives arrive at the same conclusion, that conclusion can be reinforced in the minds of the students.

3. Guest Lectures provide expertise in select areas within which the teacher may have limited knowledge. Not everyone that teaching a course is an expert on every aspect taught within the course. In fact, few teachers probably are. The key is to know who is and to find ways to get them involved in the course so as to best benefit the students.

4. They provide the teacher an opportunity to concentrate more on the students. If the teacher is less involved in the teaching of the content, then more time becomes available to take a step back and view the discussions taking place in the course. The teacher can pay more attention to who is posting comments, at what level of quality those messages are, and whether the conversation has sparked an interesting tangent discussion to give a few examples. The teacher can furthermore take the time to try and get some of the less active students involved in the course through personal messages and/or emails.

5. Guest lectures present an opportunity to utilize alternative technologies and teaching techniques into the course (flexibility). The guest lecturer may have a method of delivering content that is different from the main teacher. For example, the teacher may be using video in several parts of the course. The guest may instead opt to use illustrated

1

audio (similar to Real Presenter). The variation can remove the chance that repetitiveness could begin to bore some students.

Outcomes

1. Guest lecturers offers students the opportunity to meet passionate, committed and critical people and to learn from them in various ways.

2. Guest lecturers provide an important educational experience for students based on their real-world life experiences. Students get to see the insight and perspective of the guest lecturers' specific field. The format can enable students to interact with professionals in formal and informal settings. Through discussions, interpersonal competence and communicative skills are fostered. Guests' contributions can take the format of a single lecture, a lecture series over a specific period or workshops.

3. Another outcome is the link that students get to make between what they learn in their textbooks and the experiences shared by the guest speaker. Students thereby build important connections between what they have learned and the real world.

4. Guest lecturers can act as role models and bring an authentic, vivid picture of the real world to students, thereby enabling transdisciplinary learning. Experiences and perspectives from local actors and entrepreneurs inspire students in their own (entrepreneurial) projects, creating motivation and an action-orientation. They bring in special expertise and experiences that teachers cannot provide. The extent to which guest lecturers' inputs are valuable depends however on the guests' personal skills, their experience and personality.
